## Have you spent your personal money on COVID-19 related items?

| School                    | Comment   |
|---------------------------|---|
| Aloma Elementary          | Since the beginning of the pandemic, I have bought n-95 masks because I typically work in very small spaces with questionable ventilation. Some of the students I work with have difficulty keeping their masks on and I want to make sure I am not a source of infection.  |
| Apopka Elementary         | Air purifier was a gift but buy the filters   |
| Apopka HS                 | Only for my own use   |
| Baldwin Park Elementary   | At the beginning of the school year only the cloth masks that were too large were being past out to students, so I had to purchase smaller paper ones that fit appropriately for them until the school started ordering paper masks.  |
| Bridgewater MS            | I've spent my money on Child-sized masks as only adult ones are provided.   |
| Brookshire                | No one asked me to spend my own money. I did it for my own comfort/peace of mind.   |
| Brookshire                | School has provided us whatever we need.  |
| Camelot Elementary        | I have asked for N95 masks but was told even though masks were available I was not allowed them as they were on for those who had accommodations.   |
| Carver MS                 | I have purchased my own hand sanitizer because the school item smells awful. I have purchased over 200 masks because I think it is important for students to have masks that fit properly.  |
| Cheney Elementary         | I buy the spray Lysol for harder to wipe surfaces. I also buy real soap because the pathetic foam soap doesn't make me feel clean at all and at the start of the year would also run out so now I have my personal teacher stash for myself. Sorry I can't afford for my kids to go through a bottle of real soap every week. |
| Clay Springs Elementary   | Plexiglass shield for my classroom teacher desk   |
| Colonial 9th Grade Center | My bathroom never has soap. I keep our class and bathroom soap stocked.   |
| Colonial High             | The I'll fitting cloth masks the county provides are inadequate and unacceptable.   |

| Cypress Creek                | The cloth masks and sanitizer provided are   |
|------------------------------|--|
|                              | for the students. I bought my own sanitizer  |
|                              | and KN95 masks   |
| Cypress Creek High           | I purchased an air purifier this school year.  |
|                              | However, I do remember the district stating  |
|                              | that they would provide air purifiers for every classroom last year. I have not seen one |
|                              | OCPS purchased air purifier.   |
| Cypress Creek HS             | The hand sanitizer from the county has a   |
|                              | really bad smell so I buy my own. Kids don't   |
|                              | like to use it.  |
| Dillard Street Elementary    | I bought my own masks for home and work  |
| District                     | Air purifier   |
| District                     | Parents have been donating also  |
| Dream Lake Elementary        | We have been given 3 KN95 masks. I have  |
|                              | purchased more additionally from Amazon,   |
|                              | just so I know that I can be properly equipped   |
|                              | and not worry about not being able to find the replacements when needed. 3 masks are not |
|                              | enough when we perspire and talk in them   |
|                              | and they become moist.   |
| Eagle's Nest Elementary      | The big purchase was my air purifier (medical  |
| ,                            | grade) about \$180 with warranty. School   |
|                              | funds by OCPS would not cover it. I used   |
|                              | teacher monies for all other supplies so far   |
|                              | this academic year.  |
| East Lake                    | I have provided students with paper masks  |
| East RiverHS                 | upon request all year.  I made my own cloth masks but I don't feel                       |
| Last Miveli lo               | like it would be something I needed  |
|                              | reimbursed for   |
| Edgewater ESE Admin Building | Waiting for the year to be over  |
| Freedom                      | I bought KN95 masks for myself as I was  |
|                              | concerned about exposure when returning  |
|                              | from break. I have a sink in my classroom. I   |
|                              | purchase liquid soap so my students are able   |
|                              | to wash their hands without leaving the  |
| Freedom High School          | classroom. I am scared every day   |
| Glenridge MS                 | All of my masks have been purchased by   |
| C.o.mago Mo                  | myself.  |
| Horizon West middle          | I supply my own masks. The ones that OCPS  |
|                              | provides are cheap and I do not feel safe.   |
| Howard Middle                | New disposable masks required daily for my   |
|                              | students for my program. Was told school   |
|                              | would not provide and I had to purchase  |
| Jones                        | them using my "classroom fees"  Air purifier   |
| JUI169                       | All pulliel  |

| Lake Como K-8              | I have to spend my money on KN95 masks to        |
|----------------------------|--|
| Lake Golfio N-O            | be able to do my job safely. I do not buy N95    |
|                            | because they are too expensive.                  |
| Lake Gem                   | I have a preferred type of mask and do not       |
| Lake Geiii                 | like the district provided sanitizer so I        |
|                            | · ·  |
| Lake Nona                  | purchased my own.                                |
| Lake Nona                  | The school provided masks don't fit all          |
|                            | students well, so I keep masks in my room for    |
| Lavall                     | students on request.                             |
| Lovell                     | The hand sanitizer from the district is          |
|                            | disgusting and no one wants to use it. I rather  |
|                            | spend money on something my kids will use.       |
| Memorial Middle School     | I am lucky that I have supportive parents and    |
|                            | a stockpile from last year when I was fully      |
|                            | virtual.   |
| MetroWest                  | I had to purchase a test when a student I        |
|                            | spent a lot of time with tested positive for     |
|                            | Covid. There were no free testing sites          |
|                            | available for a week.                            |
| Moss park elementary       | I've bought multiple boxes of disposable         |
|                            | masks, I have purchased multiple cans of         |
|                            | Lysol, multiple bottles of wipes (Lysol and      |
|                            | Clorox), and paper towels                        |
| Name of School or Worksite | A parent last school year donated an air         |
|                            | purifier with UV-C light. Also, an essential oil |
|                            | diffuser.  |
| Oak Ridge High School      | OCPS should be providing the best masks          |
| ,                          | possible since we are required to wear them.     |
|                            | Every day we hear that cloth masks are the       |
|                            | worst protection. OCPS can and should step       |
|                            | up and provide the best protection possible.     |
| Oak Ridge High             | I teach music and have to disinfect              |
|                            | instruments often. Lysol is not provided. I buy  |
|                            | out of pocket often. I also bought my own air    |
|                            | purifier and the filters to hopefully help       |
|                            | improve the safety of my classroom for           |
|                            | everyone.  |
| Oak Ridge HS               | I refuse to provide PPE for anyone other than    |
|                            | myself with my personal money.                   |
| Oakshire Elementary        | I am buying medical masks for my students        |
| Canonia Liomontary         | to change out throughout the day. I also had     |
|                            | to buy my own N95 mask for my own use.           |
| Ocoee Elementary           | I spent money last year on child-sized masks     |
| Cooce Elementary           | because the ones the district provided were      |
|                            | too big or too small. We have masks that fit     |
|                            | I - I  |
| OCDS ACE                   | better this year, so I didn't need to buy any.   |
| OCPS ACE                   | I prefer the KN95 masks which I personally       |
| Ohmania                    | purchase for my use.                             |
| Olympia                    | I order child sized masks monthly. The price     |
|                            | varies depending on the vendor.                  |

| Orange Center Elementary  | The masks don't properly fit K students.   |
|---------------------------|--|
| OTC- Orlando campus       | We cannot rely on the school. The school says they are waiting on the District   |
| Palmetto Elementary       | Since I teach on a specialized floor, and have seen the janitors 2 times this year in my room, I have had to buy my own floor cleaning supplies and equipment. I have shared multiple times that no cleaning is happening in my room, or our dept planning/restroom area to no avail. I hold events and have to replace TP on my own - it is insane. |
| Pershing School K-8       | The sanitizer that is provided by the district smells terrible. Kids hate it and it makes me nauseous. I buy my own or ask parents for donations.  |
| Riverdale Elementary      | I've been buying kn95 masks all year for myself. They aren't cheap.  |
| Rock Springs Elem         | On masks to keep safe.   |
| Rolling Hills             | I bought hand sanitizer before Covid. It's just something I always have in my room.  |
| Shenandoah ES             | I have bought medical masks and KN95 masks to double mask this year.   |
| Shingle Creek Elementary  | Students will not use the hand sanitizer that is being provided by the school. It is AWFUL! We have to have a special condition to get an N95 mask.  The custodians are NOT doing any disinfecting and barely cleaning our rooms.  |
| Silver Pines Academy      | Constantly buying masks, Lysol, wipes, Disinfectant and paper towel. These items are costly.   |
| Silver Pines Academy      | I've asked parents to contribute   |
| South Creek Middle School | I bought small child size masks when they were required for students. The ones the school has don't fit my kindergarten students.  |
| Spring Lake Elementary    | I buy my own masks by choice, not because they're not provided.  |
| Sun Blaze Elementary      | My school has always provided the Ppe. I bought hand sanitizer bc want the district gave us smells so bad I can't use it   |
| SunRidge Middle           | The hand sanitizer in my room was leftover from last year. It was not my room last year. It is very smelly and sticky, and no one uses it. I provide the better brands, such as GermX to my students. The large tables are misted  |

|                                       | and day but not deale or obeing I have  |
|---------------------------------------|---|
|                                       | each day, but not desks or chairs. I have bought my own disinfectant spray for this |
|                                       | purpose.  |
| Sunrise                               | The masks provided to students don't fit  |
| Sumse                                 | them, or they don't "like" them, so I buy kid-                                      |
|                                       | sized masks with designs and such so they   |
|                                       | are more willing to wear them. Now that I've  |
|                                       | had Covid, I've bought my own N95 masks.  |
|                                       | I've purchased wipes and cleaning supplies in                                       |
|                                       | the past, but that doesn't seem to be an issue                                      |
|                                       | anymore. I can usually get that from admin.   |
|                                       | For a while, the wipes had what looked like   |
|                                       | roach eggs in all of the packages, though.  |
|                                       | Those were gross.   |
| Sunshine Elementary                   | My kids understand the routine and we get it  |
|                                       | done.   |
| TCHS                                  | Classrooms are rarely cleaned.  |
| Three Points Elementary               | It was my choice and personal preference for  |
|                                       | the PPE items I bought. I wasn't a fan of the                                       |
|                                       | smell of feel of the district provided sanitizer.                                   |
| Thornebrooke                          | I recently had to purchase more items for the                                       |
|                                       | classroom.  |
| Tildenville ES                        | KN95 mask. I am constantly around people.   |
| Union Park Middle                     | Lysol disinfectant spray  |
| Union Park Middle School              | I have always bought my own masks   |
| University                            | For KN95 masks or better disposable masks.  |
| Wedgefield                            | I've been buying wipes, masks, soap-  |
|                                       | everything for my class. The soap   |
| Wadaafiald I/ 0                       | dispensers aren't filled.  N95 masks and home test kits should be                   |
| Wedgefield K-8                        |   |
| West Creek ES                         | supplied by school.  This is in addition to everything else that                    |
| West Creek ES                         | comes out of our pockets like pencils that I  |
|                                       | constantly have to replace monthly because  |
|                                       | my students parents can't afford them. And  |
|                                       | extra storage I have purchased out of my  |
|                                       | pocket to keep supplies separated for   |
|                                       | sanitary reasons in the prevention of COVID   |
|                                       | spread.   |
| Whispering Oak Elementary             | Students prefer the disposable masks. The   |
| · · · · · · · · · · · · · · · · · · · | school provided masks are too big and annoy   |
|                                       | them. They've asked me to please get them   |
|                                       | kn95s but I cannot afford it. I buy disinfectant                                    |
|                                       | spray to clean my desks and tables every  |
| N                                     | morning.  |
| Windermere High School                | I wipe the student's desk myself because not  |
|                                       | all custodian clean the desks.  |

| Windermere High | KN95 masks are not being provided and are extremely expensive following Christmas break.  |
|-----------------|---|
| Windermere HS   | The masks that were given to us are either too tight or way too big for first graders. I have to replace with a more kid friendly type of mask.   |
| Windy Ridge     | Masks for students. The masks provided by the school were cloth masks without a nose piece and did not fit my students' faces. They were in need or disposable masks (child sized) with a nose piece to fit properly. |
| Windy Ridge     | it's swept, that's it. Never really cleaned or sanitized. Even when we have positive cases. That is a lie that is told on the announcements to parents when we have positive cases.                                   |
| Winter Park     | I like specific reusable over the head (not ear) masks  |
| Zellwood ES     | This was by my choice to spend my own money because I didn't like the sanitizer provided and because I prefer Lysol wipes.  The school is now providing Lysol wipes so I am not buying anymore.  Bought by choice.    |
|                 | I am looking into a purifier but cannot afford it. I have spent all of my \$300 on nothing but cleaning supplies. I have about \$50 left for the year   |
|                 | I choose to purchase reusable masks that fit my face.   |
|                 | Masks provided are not the appropriate size and fit for younger students  |
|                 | My coworker asked for a mask for a child last week and she was told they don't have anymore.  |
|                 | Parent purchased air purifier last school year. Parent purchased essential oil diffuser last school year. Parents have donated disposable kid size masks.   |

| School provides some PPE but we feel more secured buying Lysol; brand and 3/layers face masks for us teachers and students. I disinfect my classroom twice per day, after lunch (before switching classes) and after dismissal duty. Administration keep insisting that our classes should switch instead of having only teachers switching. |
|--|
| School provides the basics. I spent money on kn95s, better hand sanitizer that isn't sticky or smelly, and wipes that work better.   |
| Soap in restrooms have to be reported to be refilled. I had to ask to have my room cleaned with chemicals and vacuumed. Room has not been cleaned properly since August. I asked 2 second week in January.   |
| Thankfully I have a lot of parents that help with donations! Otherwise I'd spent more than \$200   |
| The masks we were given were a joke. They were so thin they couldn't block anything and they had no shape. They were too big for both kids and adults.   |
| There are no masks at my school. They have some black cloth that are too big for students.   |
