

Comments on Cleaning

School	Comment
Acceleration East	"Deep cleaning" is unnecessary. It's a virus not nuclear waste. We need to be careful but not over the top, that weakens real concerns
Aloma ES	I don't think my room gets tables cleaned so I just do it myself.
Andover	<p>"Cleaned everyday" as in I see the janitor in my room. However I never see desks wiped or anything disinfected. It's mostly the floors and trash cans.</p> <p>Nothing shared is ever cleaned I don't know if that's supposed to fall on me but I don't have the time to spray all the pencils 18 kids go thru in a day.</p> <p>I have never had a positive case but I am sure where the positive teammate sat at PLC (a child's desk in the team leads room, was never cleaned after the positive results)</p>
Andover Elementary	Admin says yes. But teachers report otherwise
Andover Elementary School	Again with shortage of custodians only trash is removed and bathrooms cleaned.
Apopka	All cleaning, beside trash dumping is done by para's and myself.
Apopka	As stated before, I have known positive cases in my class per students informing me directly and there doesn't seem to be any change in cleaning and little disinfecting.
Apopka Elementary	At this moment I don't know when a student is absent due to covid.
Apopka Elementary	Basic cleaning like vacuuming and taking out trash and mopping is being done. My students wipe there own desks at end of day. Custodial staff has not sprayed for sanitizing since last school year that I have seen.
Apopka Elementary	Before winter break, my floor went a month without proper cleaning. My students would wipe desks and find the wipe pure black.
Apopka High	Besides taking out the trash, my classroom is rarely cleaned. They maybe vacuum once per month but that is all they do ever.
Apopka HS	By cleaned a few times a week I mean the floor is vacuumed and the trash is taken out.

Apopka Middle	Classes are swept and the trash is emptied. Nothing is wiped down or disinfected other than the sink.
Arbor Ridge K-8	Classroom cleaning means the garbage is dumped and maybe the floor is swept- THAT'S IT. The same dirty spots remain on the floor for over three months now. There is no deep cleaning despite positive cases in my class.
Baldwin Park Elementary	Classroom garbage emptied every day but not vacuumed, dusted or mopped. I clean my classroom myself
Baldwin Park Elementary	Classroom is swept daily, some days I personally clean desks, some students also wipe down desks when they want too
Baldwin Park Elementary	Classroom trash is taken out daily. I don't see anything else being cleaned daily. I sweep my room every morning and wipe my desks down because I can't tell if it was done or not. My floors and counters are always dirty, so I can only assume the desks are not cleaned.
Blankner	Classrooms are being swept, sometimes mopped, garbage is being dumped but the garbage bags are not being changed. I have not seen surfaces wiped down
Bonneville Elementary	Classrooms are cleaned, swept and garbage thrown out, but they are not disinfected.
Boone	Classrooms are just swept and trash emptied I have to go around and spray disinfectant on tables and shared supplies
Bridgewater Middle School	Classrooms are not cleaned daily. Students and I clean counters, desks and other surfaces with wipes provided by parents.
Bridgewater Middle School	Classrooms are not sterilized. Claims of sanitizing when everyone was out of the room. Not confident in thoroughness.
Brookshire	Classrooms at my school aren't being deep cleaned from what we can tell even after we get a covid call that the areas have been deep cleaned
Camelot ES	Cleaning does not happen!!!! Classrooms only get trash emptied. Hallways and classrooms do not get swept. Surfaces do not get sanitized or even wiped down.
Catalina Elementary	Cleaning doesn't happen very often

Chain of Lakes	Cleaning is desks and once a week floor washing- sweeper every day. Custodial tries very much but are very overwhelmed and missing the number of people to do all the work. I have my students wipe down desks and I clean common areas to help them. This adds 10-15 minutes of work daily for me.
Chain of Lakes	Cleaning is lacking. I've never seen the janitor clean the bathroom sinks.
Chickasaw Elementary	Cleaning of my classroom is not being done daily or weekly or even by-weekly.
Citrus	Cleaning was going well at the beginning of the year but now we do not have enough custodians
Citrus Elementary	Custodial crew does not sanitize common areas such as desks, door knobs, etc
Citrus Elementary	Custodial is having staffing issue, I'm lucky to get my room vacuumed, I doubt other cleaning is actually happening.
College Park Middle	Custodial shortages have led to very unsanitary working conditions
Colonial	Custodial staff has faced the same shortages as all work locations with the latest spike. My room was only getting trash out so I swept and mopped for a week because it needed to be done, it's dance and we lay on the floor at various times and I want kids safe. I'm not going to burn out the few custodians we do have by making them scrub my room. When fully staffed it is cleaned to my needs.
Colonial	Custodian shortage. I came back from winter break and my floors still had debris from the week before the break. We were told to have our last class help clean up a bit. I give each table a wipe and the students take turns sweeping at end of day. I empty trash cans into the one closest to the door. I spray the room after students leave with Lysol or microban. I'm high risk and immune compromised.
Colonial High	Custodians are not disinfecting rooms. My room is cleaned every 1.5-2 weeks. I have to stay after school to clean. It's impossible to clean between classes because of the short time and pressure on having to allow students into classrooms during class changes.
Colonial High School	Custodians are out sick or with family issues, taking care of a parent or child. No subs so the teachers clean their own room. One

	custodian often expected to clean the whole place so just trash picked up.
Conway	Custodians are overwhelmed and overworked. They were told that they needed to assist in the cafeteria so they are not cleaning three times a day common areas as they were before. They are human beings and are exhausted, but the district does not care at all about them, or anyone but themselves. Furthermore, there are shortages of custodians due to CoVid leaves so the ones who are at school, have to do their job plus more without getting extra pay.
Cypress Creek	Custodians used to wipe desks of two times a day. They came during lunch to clean desks and the bathrooms. Now they only take out the trash daily. They do not vacuum daily. Sink and tables are not disinfected. I have to do that.
Cypress Creek High School	Daily (usually) the trash is picked up from my room. Usually once a week my floors are cleaned. I've never seen my desks or anything else cleaned. At the beginning of the year the handle to my door would get cleaned but I haven't seen that happen in forever. If I want desks sanitized I have to do it. I've had plenty of Covid positive kids in my room and I've never seen anyone come clean my room.
Cypress Creek High School	Each case that has been confirmed has had the same usual wipe down of students desks which happen within a second per table. Student chairs are not wiped where they grabs each day. I have never seen a deep clean done due to a confirmed case. I stay late and don't see any special cleaning done.
Cypress Creek High School	Each day my garbage is emptied, my bathroom is clean. The carpet is not vacuumed regularly. Over Christmas nothing was done we came back to filthy dirty classrooms. Also desks are not wiped down on a daily basis like they were last year. If I want countertops and desks wiped down I must do it myself.
Dillard Street	even though the room gets cleaned every day I'm not sure if the desks actually get wiped down or not
District Mental Health Services	Floor has not been mopped since August.
DPHS	Floors need to be mopped more often. They just spray but never wipe. Never full deep cleaning.

Dr Phillips	<p>From what I can tell- only our floors are vacuumed and bathrooms are cleaned. It does not appear the tables or computers are cleaned/dusted.</p> <p>I have had major health issues due to the air and dust and cockroaches in our building- which caused me multiple doctor visits, due to my allergies.</p>
Dr Phillips HS	Garbage cans are emptied daily. Sometimes the toilet and sink are wiped down.
Dr. Phillips High School	I am in my portable usually by 7:30 every morning and there during lunch and after school. Despite having multiple positive cases, there is no deep cleaning happening unless it is happening late at night. The cleaning lady wipes my door handle and takes out the trash and that is it. I do not blame the custodians as there are not enough of them, they work very long hours and I believe they are following OCPS directions.
Eagle Creek Elementary	I am proud of how my school handles cleaning of classrooms. It is done multiple times during the day. Teachers are provided with cleaning materials to use, if they feel additional cleaning is needed.
Eagle's Nest	I am spraying the desks between each class and having my students wipe them down. But, other than that the custodian only empties the trashes on a daily basis. This is because of the custodial staff not having enough people.
East Lake	<p>After the fact-when I have already entered and then the disinfecting took only a few minutes and involved just a spray bottle and some unknown liquid.</p> <p>I only know about my classroom, no others.</p>
Eccleston	I am the cleaner of my classroom. My floor is almost never swept/mopped. I've seen the custodian come in and spot clean or wipe down the desks on the perimeter. We have purchased our own vacuum, brooms, Swiffer mops, etc.

Eccleston	I am the only person cleaning and disinfecting once we know about a positive case.
Eccleston Elementary	I believe in my offices they only thing done daily is the trash being emptied.
Eccleston Elementary	I clean and I have my students clean their areas.
ECE	<p>I clean my room daily. I wipe all desks and door knobs, counters and such myself each day. Custodians don't do that. They clean bathroom, sweep and vacuum, and empty trash in each room. Last year custodians came in my classroom while my class was at lunch and wiped each student desk down. Granted it was quick and probably not a good clean but it was something.</p> <p>This year though no one comes to wipe student desks during the day or after school. We are short staffed for custodians and I don't think my classroom is fully cleaned each day either. Trash is emptied but I don't think it's swept or vacuumed daily like it used to be.</p> <p>I continue to wipe my room down each day.</p>
Edgewater ESE Admin Building	I clean my supplies and tables. The custodians come in but their concern is trash and cosmetic things.
Elementary	I clean myself to make sure.
Endeavor Elementary	I clean shared items twice per day. My room is swept daily and trash is removed by custodial staff. That's pretty much it.
Endeavor	Classroom is cleaned thoroughly by me, the teacher and students. In depth cleaning is not happening anymore
Evans	I clean the high touch areas.the trash is emptied and the floors are brushed over. It would be nice if the tables, sinks, and door knobs were cleaned.
Evans High School	I do must of the cleaning in my room. We are short staffed with custodians. This week no

	one has vacuumed my room. Also my floors have not been mopped in months. My air filter has not been changed in who knows how long. My room is often dirty and super dusty until I clean. I have my own vacuum in my room for this reason. This takes away time from my planning and other duties.
Forsyth Woods Elementary	I do not feel like my classrooms are being properly cleaned and sanitized. I've come in everyday since October to find tile floors not mopped, desks not wiped, and my bathroom sink not cleaned. When covid first started, high touch point were sanitized through out the day, not anymore
Forsyth Woods Elementary	I do not know how often my classroom is sanitized on a daily/weekly basis. However, I know it is not daily.
Frangus	I don't care.
Freedom High	I don't know if the room has been deep cleaned.
Freedom Middle	I don't think shared materials are cleaned unless I do them. There simply isn't enough time for the custodians.
Freedom Middle School	I don't think so. Most days we are so short on custodians the normal cleaning isn't being done. Of course our cases have been relatively low up until now compared to some
Freedom High School	They did last year
Glenridge	I don't think there is any deep cleaning happening this year. The trash is taken out, but that's all that is apparent.
Glenridge Middle School	I don't see much deep cleaning going on.. They don't even clean the sinks and tabletops daily.. It feels dirty.
Glenridge MS	I dust and sanitize my own classroom daily
Gleridge Middle School	I had my first student test positive for Covid. The reason I found out was because I ask the nurse and the student showed up on the DOH report today. During recess admin and one other person went in my room with clipboards but no one told me what they were doing. My teammates speculated contact tracing, but no one has of yet said anything to me. The regular cleaning was the only thing done.

Horizon High	I had two positive cases in my classroom last week and NOTHING has been cleaned. We still don't have soap in my student bathroom and it's been 2 weeks.
Horizon West Middle	I have an office and I am the one that cleans it.
Horizon West Middle	I have asked about cleaning procedures, but the message was conveyed to the custodian that I was complaining (which I was). Then the custodian came in and yelled at me. However, my room is NOT routinely swept or mopped, and I know that surfaces (desks and/or door knobs, etc.) are NEVER cleaned
Hospital Homebound	I have had cases in my classroom and I know they didn't go in to clean or disinfect because there were desks that were still dirty from the day before.
Hospital Homebound	I have had dozens of cases this year. My classroom has never been deep cleaned (I have never been notified). We have a very small custodial crew bc half are out with covid.
Howard	I have had multiple students test positive and my classroom hasn't been cleaned in over a month.
Howard Middle	I have never noticed any rooms deep cleaned. There are teachers who have been out due to COVID and I have not seen any deep cleaning.
Howard Middle School	I have never seen any area of this school be misted or thoroughly disinfected. Custodians dumps the garbage and vacuum. That's all.
Hunters Creek Middle	I have never seen anyone cleaned my room or spray it.
Innovation MS	I have not heard of this being done since last year.
Innovation MS	I have not seen any misting since August.
Itinerant	I have only ever seen the janitors who clean my classroom empty the trash cans and sweep the floor. I have not witnessed them cleaning the desks since September, and even then it was with a cloth rag used on all surfaces.
Keene's Crossing	I have sanitize my tables the custodians do not sanitize counters or tables, door handles in the classroom

Lake Buena Vista HS	I haven't seen any deep cleaned from positive cases but the phone calls say they have.
Lake George	I hear the voice messages stating the areas were cleaned. However, I do not know for certain.
Lake Nona High	I keep my room extremely clean. I clean after each class period. Wiping desks, spraying disinfectant, etc....
Lake Nona High	I make items that are shared are cleaned daily.
Lake Nona Middle School	I have never had my classroom deep cleaned after covid exposure. Since January, the only thing that has been done by the school is emptying of trash. Floors have not been swept, mopped, or dusted. I have the students use wipes to wipe tables about twice a day but there are not enough to do it between each class.
Lake Nona MS	I only know that my desks and chairs are cleaned because I clean them with my own supplies.
Lake Silver Elementary	I personally clean because I'm a clean person. I cleaned before Covid, NOT because of it. So nothing has changed on my end.
Lake Weston Elementary	I really do not know how much thorough cleaning is being done.
Lancaster Elementary School	I sanitize my classroom myself. One of my students tested positive after being in class and no one was informed and my room wasn't cleaned.
LBVHS	I spray my own classroom with Lysol and wipe down desks. Classrooms are not cleaned regularly to stop illness from spreading.
Lockhart Middle School	I use various offices/classrooms and when I wipe tables/surfaces at these places you can tell I'm the only one doing it. There is NO soap. Yesterday the school I went to had bathrooms with no soap in dispensers at all.
Lovell	I use wipes students have given me to wipe off desks, pencil sharpeners, chairs, etc. I believe our school is low on masks because we are not receiving them along with the hand sanitizer and wipes.
Lovell	I was out with Covid and my room was not cleaned by custodial staff.

McCoy	I have had several kids test positive for Covid -19 this school year, and I have yet not seen anybody doing deep cleaning.
Meadow Woods Elementary	I was told they are being clean, do I believe no.
Meadow Woods Middle	I've had positive cases in my classroom and no one came to clean the area. I did, so the students that sit there in my other classes wouldn't get it.
Meadowbrook	I've never seen or heard of our school or any infected place be "misted".
Memorial Middle School	If by cleaning you mean empty the trash (daily) and occasionally vacuumed (2xs a week). My bathroom and other areas are rarely if ever cleaned and if there is a positive case they do not deep clean. I Try to clean daily with wipes and disinfectant spray that I bought.
MetroWest	<p>If multiple cases are happening in a class, they will spray the room.</p> <p>Our janitorial staff does an excellent job at cleaning door handles and staircase railings.</p>
MetroWest Elementary	If our custodian is out, it won't be done unless the teachers themselves stay after school and do it themselves.
Metrowest ES	If we ask our supervisor, they will make sure its done.
Millennia Gardens	I'm sure they are
Millennia Gardens Elementary	In October a teacher next door was tested positive at 6:55 pm, the custodians leave at 7:00 and before school the next day the room was not cleaned. At 8:40 the students were brought back into that classroom with a para for the day. No cleaning beyond the trash being taken out and the toilet cleaned took place.

Millennia Gardens Elementary	<p>In the first 2 months of school yes only when administration instructs the custodian to do so. This is what the custodian told me. He also said often while cleaning the floors in classrooms after school; he would have teachers disclose to him that students have tested positive in their class but never heard from administration to disinfect that class. So he would do it on his own accord if a teacher would inform him of the positive case that admin failed to do so.</p> <p>Disinfecting no longer gets done as of October. We are also “always” short staffed on janitors so many times the classes are vacuumed “cleaned” 1 a week. What I mean by cleaned it vacuum floor, replenish toilet paper, wipe toilet seat and mop bathroom. That is the only cleaning that goes on once a week.</p>
Millennia Gardens Elementary School	It was obvious last year that cleaning desks/doorknobs/high touch points was taking place most days in most classrooms. I have not seen it this year.
NLC	It's been did they were deep cleaned but I have not seen or heard of someone cleaning the room/areas.
North Learning Community	It's report that they are but, not seeing evidence
Oak Hill Elementary	Items that I use with my students and that are shared are sanitized at the end of each day. I also sanitize my students' desks at the end of the day or in the morning before students come in.
Oak Ridge HS	Last year, my classroom was cleaned almost every day. This year, they only take out the trash. I have my own bathroom and had to complain about it them to clean it. They gave me cleaning products so I can clean it when I need to more often. The room is never vacuumed. My students are pretty tidy because I try to keep it as clean as possible

	but it bothers me. They say they are short-staffed.
Oakshire Elementary	Last year, they sprayed the room between classes. This year they only spray the room once a week if that.
Oakshire ES	Mister broke at the beginning of the year and has not been replaced.
Ocoee	Most of the time the trash is removed, but the same papers at the end of the day are there the following day. There is a shortage of custodians.
Ocoee	My answers are based on the school's custodial service. I have been cleaning my room just about every morning. I come in at 6:30am to clean.
Ocoee	My bathroom hasn't had soap in over a month. I had to provide it myself
Ocoee	My class is not cleaned every day and I know This for a fact. One custodian did a great job but they moved him from my class and now it is never cleaned.
Ocoee Elementary	<p>My class used to get "sprayed"- door handles and sink during my lunch period. That does not happen anymore.</p> <p>When Covid is in a classroom our principal sprays the students desk. That is all that occurs.</p>
Ocoee Elementary	My classroom floors are disgusting and are rarely swept/mopped. I know for a fact that the area was not cleaned where a student (confirmed positive) sat. Their desk was never wiped down until I wiped it down.
Ocoee High	My classroom is cleaned but not disinfected. Trash is taken, toilets cleaned and general wipe down Only.

Ocoee High School	My classroom is cleaned everyday technically. Someone comes every day to empty the trash. The bathroom is questionable and my classroom has never been sanitized because of a positive case but I'm a special area teacher. In the last two weeks at least 5 positive cases have been in my room but the too Was not cleaned any differently.
Ocoee Middle	My classroom is not cleaned daily. I clean my desks and tables every morning when I arrive to work then spray them down with a disinfecting spray. The wipes I use are FILTHY after I'm done. The sign gets switched to "clean" on my door and it LOOKS clean but those wipes are black when I'm done.
OCPS ACE	My classroom is not disinfected regularly unless I do it myself.
Odyssey	My classroom is only cleaned when I clean it. They never vacuum. The dust bunnies have dust bunnies. The class is just gross.
Odyssey Middle School	My classroom is only swept and the trash is emptied on a daily basis-that is it.
Olympia	My classroom is rarely cleaned. There is always a janitorial shortage and we're lucky if the trash cans get emptied.
Olympia H.S.	My classroom is supposedly cleaned "daily" there is not a single thing that gets cleaned. This has been a discussion between all the teachers I know. My students comment on their own about how filthy the floor is. I have had to clean it on my own because it's so disgusting. My trash can liners are rarely changed, just emptied. You can see the same gum stuck in the bags for weeks.
Orlo Vista Elementary	My classroom seems to not be cleaned at all this year besides taking the trash out. The floors, desks, lab tables are never cleaned.
Orlo Vista Elementary	My classroom tables and counters never get wiped down unless I am wiping them down.
OTC- Orlando Campus	My classroom trash is emptied daily. That is it. No cleaning, sweeping or mopping. Over an inch of dust on all counter surfaces.
Palm Lake	My co worker tested positive. I drive her to and back from work. I was not notified by admin and I was informed her room was not cleaned.

Palm Lake	Our custodian staff is not fully staffed. I teach k and they do try to get to us daily. I do my own table cleaning and disinfecting. I am not aware of what deep cleaning would look like after confirmed Covid cases.
Palmetto Elementary School	My floor had not been mopped since November to my knowledge. It was filthy. When they mopped it the 1st week in January it was so dirty that the floor was left with dirty water streaks. They came that afternoon and mopped again.
Pershing School	My classrooms is not sanitized everyday. Bathrooms floors are not swept daily. Many times there is no soap.
Pershing	My room does get "cleaned" daily. Trash out and bathroom. However it never gets swept and mopped. Never!
Pershing K8	my room is an absolute mess. The floor hasn't been swept or mopped in months. I had a student vomit outside my door and in my trashcan, it took 4 hours for someone to come clean it up even though I called multiple times. A student stepped in the vomit and tracked it in my class. I'm not sure that has ever been sanitized, just cleaned up with a wet mop.
Pershing School K-8	My room is barely cleaned daily (mostly due to shortages) and I highly doubt that it's being sanitized. I know they haven't continued with the sanitizing spray like they used last year. They state in the messages that "affected areas are being deep cleaned" and, while I don't see any cleaning happening, I find it hard to believe anything is being deep cleaned when normal cleaning isn't being done.
Pinar Elementary	My room is cleaned once a week
Pineloch Elementary School	My room is swept and the garbage is removed daily. That is all.
Pinewood Elementary	My room is swept randomly and the restroom cleaned a couple times a week. The sink in my classroom is never cleaned. The desks and common areas of the room are never cleaned.

Robinswood Middle School	I have had students in my class who had covid. The phone message says that areas were cleaned, but there has never been any evidence that it was. Administrators never advised that my room had been deep cleaned. No cleaning residue was visible on student desks (like last year at my previous school). I have only seen custodians wipe off door handles from the hallway, not the inside. After hours, custodians only empty the trash in my classroom.
Robinswood Middle School	Not that I know of.
Rock Lake Elementary	My room isn't being vacuumed, much less cleaned to the level of covid needs. As well the bathrooms do not work properly. And are not being cleaned. The smell of urine is pungent as you walk into it.
Rock Springs	My room was moved and "deep cleaned" but when I returned, the desks were still covered with sticky notes and items that were left to see if cleaning occurred.
Rock Springs Elementary	My students clean their own desks before sitting and I spray the desks at lunch and after school (when classroom is empty)
Rolling Hills Elementary	My trash is collected daily but all other cleaning, dusting and disinfecting is done by me with my supplies.
Sell Wood Elem.	My trash is the only thing taken care of on a daily basis. I clean/sanitize my desks/tables after every push-in class. (I am an Intervention Teacher.) The floors in my classroom have not been cleaned in months.
SLE	Need to use a different towel for each classroom and tables need to be wiped down.
Social Services	Neighboring classroom showed lack of cleaning after positive case.
South Creek Middle School	No cleaning is going on but trash dump. No vacuum or wiping of anything by janitors. I have been doing it all with kid help. Do we get paid for the janitors job. Nope. Also had covid cases in class and nothing cleaned like the phone calls home to parents say.
South Creek Middle School	Non-existent. The cleaning staff are complacent due to the culture school leadership has established.
South Creek MS	Not at my school, not at my husband's school, not at my sons school. They don't send messages anymore to even inform parents.

South East Learning Community	Not enough custodians....many have been out sick and my room has not always been cleaned on those days.
South Learning Community	Not good
Southwest	Offices or rooms used by itinerant social workers are not cleaned or disinfected I only see the trash taken out.
Southwest Middle	Only trash is taken out daily. Sometimes floors are swept. Tables and chairs are never cleaned my custodial staff.
Southwest Middle	Our classrooms are not being cleaned nor sanitized. It is obvious that the floors aren't even being swept in the classrooms or hallways.
Student Services	Our classrooms are not cleaned. Only vacuuming maybe a few times a week.
SunRidge Elementary	Our floors are filthy. They are rarely even swept. I have not seen a custodian wipe down anything in my classroom this year.
SunRidge ES	Our floors are only thoroughly cleaned/mopped/waxed once a year during the summer. That's it. By the end of the year, the floors are nasty. Our trashcans get emptied and that is all.
Sunridge Middle	Our LC office space is never cleaned. They barely clear the garbage.
SunRidge Middle	Our rooms are not cleaned daily, or a few times a week. I don't even know if they are cleaned weekly. We are told that we don't have a crew leader and only one or two workers and they are only able to empty the trash cans and clean the restrooms. So, we are to have the students pick up as much trash off the floors. Because I have Lysol wipes I have my students to wipe down their desk every afternoon for some cleanliness and safety.
Sunrise	Our rooms are not cleaned. Ever. Even over breaks. I have pictures. The trash gets taken out and that's it. A single surface has never been sanitized. They aren't even told to do so in classrooms.
SWLC schools	Our school is not clean! It is not disinfected like it's supposed to be. Our floors, bathrooms, and toilets are mopped with the same mop. Our sinks are very gross. Door handles are very gross.
Thornebrooke	Really, this is NEVER done.
Three Points	Room has not been deep cleaned all year. Areas of positive cases not cleaned at all.

Tildenville Elementary	See above- it is ridiculous. I should be getting janitorial pay.
Timber Creek	Shortage of custodians - limited cleaning is done
Timber Creek High School	Shortage on custodians— bathrooms go weeks without being cleaned. Have never seen classroom desks get wiped or sprayed.
Timber Creek HS	Shortages in custodians
Timber Lakes	Sometimes classroom is not cleaned. The reason given is that they're short staffed.
University High	Sometimes the janitors and their supervisor are not informed of positive cases and therefore appropriate areas of campus are not sanitized. Also, with teachers covering when substitutes are not available, the whereabouts of any one student are not definitively known. For example, a student who was in my room when I covered another teacher's class tested positive but my room was not sanitized because no one knew they had been in my room.
UPE	Tables are not wiped, rooms are vacuumed 1x per week. I wipe my tables daily.
Ventura Elementary School	The "misting" done is so inadequate.
Ventura Elementary School	The announcement/phone call said it was cleaned, but I don't know what was done or if it was deep cleaned. I had a second child that tested positive in my classroom, but it was a home test so it was not reported. Another child and the whole family was sick, but they did not get tested. I'm sure there are many cases like this unfortunately.
Vista Lakes	The audio messages say that they do but I never witnessed it happening.
Washington Shores	The classrooms are not being disinfected at any time during the day, nor after a covid case is detected. I understand that too many cases show up every day, but that raises the questions ; should we even be on site, what other measures can be taken?
Water Springs Elementary	The cleaning of the classrooms is horrible!

Waterbridge	The custodian for my building is wonderful and I believe if he is at school, things get done. I believe they have also had staff shortages at times and we've sadly expected too much of our custodial staff. My school has two self-contained ESE units and those rooms alone are a nightmare to clean/disinfect under normal circumstances.
Waterbridge	The custodians are understaffed and my trash cans are emptied every day, however, the floor is not swept and desks are not wiped down. I kept track and my floor has been swept an avg of once a month his year and the desks have never been wiped down to my knowledge.
Waterbridge Elementary	The custodians clean after i leave for the day. I have no idea what they have time to do. They are over worked and under supported as well.
Wedgefield K-8	The deep cleaning doesn't happen immediately. Perhaps after hours, but I personally have not seen any deep cleaning happening during the school day.
Wekiva	The hand sanitizer in my room was leftover from last year. It was not my room last year. It is very smelly and sticky, and no one uses it. I provide the better brands, such as GermX to my students. The large tables are misted each day, but not desks or chairs. I have bought my own disinfectant spray for this purpose. One time I ran out of spray so I squirted precious hand sanitizer on the desk to wipe it down.
Wekiva High School	The majority of cleaning I see in my classroom is garbage removal. I don't see anything get wiped down, dusted, mopped, or vacuumed because of a custodian shortage.
West Creek Elementary	The majority of our custodian staff is wonderful and does what they can... we have one person who doesn't clean and the rooms she has assigned to her are disgusting. We have been asked to send pics and most teachers do so they can be sent to the custodian managers. This same custodian also came to work when positive and rarely wears a mask.
West Creek ES	The only cleaning that happens in my room is done by me.
West Orange High	The only thing that gets "cleaned" regularly is the trash being dumped. Floors aren't

	vacuumed regularly, paper towel holders aren't replaced for days when they run empty. We periodically get messages from admin about making sure that we and the students keep the classrooms clean due to custodial staff shortages.
Westbrooke Elementary	The only thing that gets cleaned in my classroom by the custodians is the trash. I have to sanitize all the shared items, the tables, the door handles, the light switches, the seats, etc.
Westridge Middle	The only way I know if my room/things in my room are cleaned is if I clean them.
Wetherbee Elementary	The phone calls home say they have but I doubt it. We are so short staffed with custodial employees. Our floors are only cleaned once a year—mopped and waxed—during the summer.
Wheatley	The principal tells us the areas are deep cleaned, but when 4 of the 6 custodians are out sick, I have my doubts that 2 people can actually clean a huge campus.
Whispering Oak	The recording says they have been deep cleaned but I have no idea if that is true
Whispering oak	The room is usually sprayed with the cleaner but that is about it.
Whispering Oak Elementary	The teachers were told that we have to wipe down the table in between meeting every kid, not that the custodians would do it for us.
Whispering oak elementary	The two offices I work in at my schools are NEVER cleaned. I do all the cleaning myself. In one office, the trash is collected. In my other office, I must empty the trash - custodians do not ever enter.
Windermere	There are no deep cleaning or misting occurring at most schools.
Windermere High	My trash is removed daily, but the toilet is not wiped and the sink area is not cleaned. There has been food debris in the bathroom sink for a week at this point.
Windermere High	There are not enough custodians to clean like they did last year. There is no misting going on. No wipe down of door handles or railings in the middle of the day. This was something I would hope they would upkeep. For several weeks before break, my room wasn't being cleaned. The day after our class party, my trash hadn't been taken out.

Windermere High School	There doesn't seem to be any deep cleaning at my work location b
Windermere High School	There has been a definite decrease in the amount and level of cleaning.
Windermere HS	There have been times when classrooms have NOT been cleaned, even though parents were notified that they had been.
Windy Ridge	There is only one custodian. They have very little cleaning. The school was cleaner before COVID!
Windy Ridge	They are reported as cleaned, but I have no way to verify that.
Winegard ES	They do a crappy job cleaning the sinks and bathrooms.
Winter Park High	They do not wipe desks
Wyndham Lakes Elementary	They do the best can, its an airborne disease you want them to mop the dky.
Wyndham Lakes ES	They just empty our trash. They only vacuum maybe once a week. The tables are no longer cleaned daily. We do have a shortage of custodians at our school.
Zellwood ES	They lie and say the area has been cleaned. When it' takes them a week or more to notify the staff and community COVID19 case.
	They say on the nightly phone call we get of Covid cases but we never know where that is. This week there has been over 50 Covid cases. Why are we not shutting down the schools if we have no coverage? It's awful! Kids are taking advantage of the shortage and wondering all over campus unsupervised. If that kid has Covid, we will never know who they have been in contact with.
	They say this in the voicemails that are sent home for COVID cases confirmed, but I've seen janitors clean rooms before and the most they do is wipe down the desks and door handles. They have an extremely difficult job and take on a lot of roles at Colonial, but I don't believe this is enough if there's been confirmation of COVID cases in a room.
	This is according to my school notices.
	This is not happening. My office was not cleaned for days, after a coworker exposed me nothing was cleaned. We were never asked where we were. We share offices and spaces and have no socially distanced places to work besides outside.

	This only happens upon teacher or school nurse request.
	Trash is taken out daily, but nothing else is done. No actual cleaning occurs.
	Trash is taken, room occasionally swept/mopped but it's not ideal or clean in my experience. Our custodial staff is short handed/overwhelmed/under performing unfortunately. I spent two hours after school cleaning my room in an effort to reduce hygiene and illness likeliness. Students began to complain, doesn't represent professional environment. I do handle cleaning keyboards/mice/equipment but having floors, doors, windows, etc. cleaned more consistently and efficiently would help.
	Trash removed daily, vacuumed maybe once, desks wiped down never, toilet cleaned daily, doorknobs wiped down never.
	Usually classrooms are cleaned everyday (swept, mopped, trash taken out), but some days my room goes uncleaned.
	Vacuum daily, that's it
	we are being told that deep cleaning is being done after somebody test positive. However I don't believe this to be completely accurate just due to the number of custodial on our campus and the size of the high school campuses. A few times I have stayed late this year when custodial came into my room after school all they did was trash nothing more. But I do not know what is being done is being done for these deep cleanings if they are happening.
	We are currently understaffed for custodians. I would also add that even fully staffed, they added extra duties for them without providing extra time or additional staff.
	We are forced to have power hour with switching kids in classes
	We are low on custodians so some days only the trash is taken out. That's it.
	We are short handed on our custodial so our restroom gets cleaned daily and trash dumped daily but I believe the room is only vacuumed when there is enough staff to do so. I have students help to wipe down their area daily and I wiped down the room again as well after they leave.

	We are short staffed in custodial on campus, and I had to request for my classroom to be swept and cleaned. As far as cleaning tables, I teach art and it's built in to my "positive studio habits" weekly grade for students to wipe down their table(s).
	We are told they are but who knows?
	We continue to struggle with cleaning. The trash gets emptied, but that is about it. Desks are not wiped down daily unless I or the students do it. Last year, desks were wiped twice a day without fail! This year, rarely.
	We had at least 10 positive cases at my school last week, but classrooms were not being cleaned. We only had 1 custodian and the only thing being taken care of was trash.
	We have been short of custodian, so there has been time where my classroom has not been cleaned properly.
	We have been very short of cleaning staff because of covid
	We have few custodial staff
	We were down a custodian for 5 weeks. We just got a replacement last week. While short, garbage cans were emptied daily, but my classroom (and bathroom) were only cleaned once a week. As of last Tuesday, my room has been cleaned daily.
	We were given no choice but to split a class due to a teacher being out sick. This class also had 3 confirmed covid cases.
	We've had custodial absences too
	When a custodian is out, we are Not sent a sub- I believe there is a shortage of custodians. That is really not ok in today's time.
	When custodians are absent, trash is only picked up in classrooms and no deep cleaning is done.
	When I learned in the evening of the Tuesday we returned from Winter Break that the classroom para tested positive for Covid. She was at school all day on Tuesday. She texted me at 7 p.m. saying she has Covid. On Wednesday morning I asked the morning custodian to deep clean my classroom before the students arrive. She told me the lead custodian is the only one trained to use the mister. He was supposed to use the mister

	when he cleans after school. Meanwhile the students and myself were in the classroom all day. I truly believe that I got Covid from the para!
	When we have custodians who are absent we go short handed. Then only our trash gets emptied and toilet washed down. I don't believe that we are being disinfected any more. The only deep cleaning that gets done is when we, the teachers do it. Our carpets have never been replaced. They are the same ones that were put in when the school was built in the early 90's. Disgusting!!
	working late all the custodian does is sweep floor. I have never seen any table tops cleaned or the restroom in my room cleaned with cleaner.
	Yes, but I don't see any evidence of disinfecting the classroom. She's just empty garbage, sweeps and mops the floor. No dusting or wiping sink or desks
